

Sodium Lauryl Ether Sulfate (SLES) Product Information

Sodium Lauryl Ether Sulfate (SLES). is widely used in many personal care and home care products like Shampoo, Bubble Bath, Shower Gel, Face Wash, Dish Wash, Liquid Detergent and Hand Wash.

It is also used in the printing and dyeing industry, petroleum and leather industry as lubricant, dyeing agent, cleanser, foaming agent and degreasing agent.

Product Name: Pearly–Sodium Lauryl Ether Sulphate 28%				
ROW	Characteristic	Specification	Unit	Test Method
1	Form	Viscose Liquid	-	-
2	Color	Pearl White	-	-
3	pH 10 %	7 - 9	-	QTM 041
4	Anionic Active %	27.5–28.5	%	QTM 003
5	Mechanical Stability tending	Ok	-	-
6	NaCl %	0 - 2	%	QTM 052
7	Viscosity at 20° cps	10000 – 100000	CPS	QTM 042
8	Dioxan Include SLS ppm	0 - 50	PPM	QTM 085
9	Aerobic Mesophilic Bacteria	Max 100	CFU/ ml or gr	ISIRI 20111
10	Pathogenic Bacteria/Yeasts & Molds	Negative	CFU/ ml or gr	ISIRI 20111
11	Formaldehyde (37%)	0.05 ± 0.01	%	QTM 075
12	CA24	0.1	%	-
